

## **A Message from the Editor**

It is a great pleasure for me to be selected as the new Associate Editor-in-Chief of *The International Arab Journal of Information Technology* (IAJIT), and to introduce Volume 15, Number 1 of such a prestigious, specialized, refereed, and indexed journal with a new impact factor of 0.724.

We are currently in a period when computing in many areas is making a major impact on the lives of many, from driverless cars to the intelligent home using the Internet of Things driven by the vast amounts of data we can store and analyze. In this situation there always a need to discuss the theory and practice of these developments. I'm very happy to be joining IAJIT to be a part of that process.

I would like to take this opportunity to sincerely thank Editorial Boards members, authors, reviewers and all those who contributed to the success of the journal.

Mick Ridley,  
Associate Editor-in- Chief
